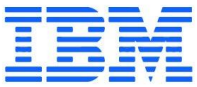
PROBLEM STATEMENT

Fertilizer recommended system for disease prediction

Agriculture is the main aspect of country development. Many people lead their life from agriculture field, which gives fully related to agricultural products. Plant disease, especially on leaves, is one of the major factors of reductions in both quality and quantity of the food crops. In agricultural aspects, if the plant is affected by leaf disease then it reduces the growth of the agricultural level.



EMPATHY MAP

Fertilizers Recommendation System For Disease Prediction

Agriculture is the main aspect of the economic development of a country. Agriculture is the heart and life of most Indians. By understanding their feelings and problems, we can create a better product and contribute to their lives. For our project, we are getting surveys from farmers to understand what they truly require and desire.

EMPATHY MAP

Persona

GANDHIRAJ

NAME & SKETCH

Produce good plant

Farmers always thinks growth and production of the plants

farmers always expect good and quality fertilizer

Farmers recognize the leaf disease for save the plant

BEHAVIORS & ACTIONS

DEMOGRAPHIC & PSYCHOGRAPHIC DETAILS

Age:40

Location : Madurai

Income : Middle income

He is hard worker
